

GLOBAL CLASSROOMS 2024-2025

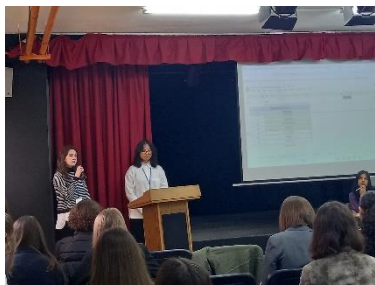

IES Josefina Aldecoa has participated in the Global Classrooms activity this year with the debate topic "*Threats to Freedom.*"

Students in 3ESO A have learnt about the United Nations, their assigned countries, the structure of formal debates, and the role of international organizations in safeguarding freedom. These lessons, integrated into their English and History curriculum, have prepared them for three debates.

A mock conference on December 11th in our school with the whole group in which students simulated a UN debate.

On January 9th, 2025, 10 selected students represented IES Josefina Aldecoa in a local event with IES El Pinar together with IES Galieo Galiei and IES Los Castillos in Alcorcón.

On January 14th we went to Madrid to participate in the official Global Classroom Debate.

This has been a wonderful opportunity for our students to engage with global issues, develop their public speaking and negotiation skills, and experience the dynamic environment of international diplomacy. We all are very proud of their achievements so far!
